## **Technical Data**

## BALANCE

## Saddle Seat with Balance Control

Improved performance through dynamic seating: The novel padded seating system has integrated suspension elements that support and effectively absorb your body's own movements (breathing, heartbeat, etc.). Balance seating furniture allows you to work without movement in the shoulder area and avoid hardening of the neck and back muscles at the same time.

- Adjustable saddle height: 46 59 cm
- 110 kg support
- Adjustable pelvic support
- With pelvic support
- With soft castors for hard floors

Upon request, the work chairs can be customised.
